

Hagley Primary School PE

Intent

At Hagley Primary School, our drive is to motivate all pupils to understand and foster a lifelong passion of physical activity. Our aim is to support pupils to grow healthily and happily, understanding the connection between physical and mental wellbeing. Within a rapidly changing world, it is essential children understand how to prioritize their own healthy lifestyles and are able to make informed choices as they integrate into society. Our progressive, inclusive and inspiring curriculum follows a national framework that is expertly sequenced and interconnected in both skills and knowledge. This starts in Nursery and progresses through to Year Six. Through high quality teaching and lesson content, our pupils learn how to develop healthy lifestyle choices whilst enabling our pupils to flourish in a range of competitive sports and other physical activities.

Here at Hagley Primary School, we recognise the importance of mental health; that's why in our PE lessons, children are supported to develop their confidence through a knowledge and skills focus, whilst working individually and collaboratively.

We also offer our pupils the opportunities to partake in competitive and non-competitive sporting activities; including after school clubs. We recognise this nurtures relationship building, sporting excellence, resilience and establishes respectable sporting behaviour (as individuals, team members and spectators). Our pupils are supported to develop a passion for sport with our aim for children to join other local clubs and enjoy a lifelong sporting vocation.

Implementation

At Hagley Primary School, the attainment of key PE knowledge and skills is an integral part of our PE lessons. Skills, knowledge and vocabulary progression grids are in place, supporting staff to deliver well considered lessons built upon children's prior knowledge and skills. This allows our pupils to learn, retain and practise the relevant knowledge and skills in a variety of sports, both indoor and outdoor.

Here at Hagley Primary School, we support pupils to build resilience, alongside promoting individual participation, team work, commitment and a healthy competitive attitude.

Our curriculum has been designed to provide opportunities for our pupils to retrieve prior learning of skills and knowledge previously taught. Teachers carefully consider key questions to ensure pupils build on their learning and they continue to make links and transfer skills to other sports.

Impact

The impact of our PE curriculum is evident in the physical, personal development and academic achievement of our pupils. Through our high-quality PE provision, pupils develop fundamental physical skills, such as agility, balance, and coordination, which contribute to their overall physical literacy. Pupils

also demonstrate improvements in their physical fitness levels, leading to increased energy levels and improved concentration.

Furthermore, our PE curriculum has a positive impact on the personal and social development of our pupils. Pupils develop important social skills, such as teamwork, communication, and leadership, through their participation in team sports and group activities. They also learn to set goals, overcome challenges, and celebrate achievements, which helps build their self-confidence and self-esteem.

Overall, our PE provision plays a crucial role in promoting the holistic development of our pupils and preparing them for a healthy and active lifestyle. By instilling a love for physical activity, teaching essential physical skills and values, and providing opportunities for personal growth and success, we ensure that our pupils leave primary school with the knowledge, skills, and attitudes needed to lead happy, healthy, and fulfilling lives.
